SOCIAL TAG ME GLAMBOT

Brace yourself for a new era in Cinematic Event Excellence.

A revolutionary blend of cutting-edge tech and artistic flair. This sophisticated setup features a high-speed camera on a robotic arm, delivering breath-taking slow-motion shots that redefine cinematography.

With an unparalleled ability to manipulate time, the **Social Tag Me GLAMBOT** captures intricate details and expressions missed in real-time. Made famous by Cole Walliser on the red carpet for the Hollywood celebrities at the Oscars, Emmys, Grammys... from red carpets, fashion shows, brand activations, product launches, corporate parties to weddings, this innovation promises to transform how we experience visual storytelling, offering an up-close view of elegance and artistry.

SOCIAL PHOTOBOOTH

We have redefined the classic Photo Booth to fit the needs of the modern client. No more walking into a box, our Open Air Photo Booth looks amazing and produces extraordinary studio quality prints that can also be instantly shared online.

The one of a kind Photo Booth selfie-making machine gives your guests a branded souvenir of your event.

Our Photo Booth has a unique and modern design that adds to the ambience of any kind of event.

Choose from a Stationary Booth or take our Photobooth to your customers with our Roaming booth.

<https://youtu.be/d2ireLTxOMg>

AI SOCIAL PHOTOBOOTH

Our AI Social Photobooth is a ground-breaking feature that redefines the boundaries of photo booth creativity! Imagine turning your guests into swashbuckling pirates, valiant superheroes, or any fantastical adventure you can dream of – all with the power of advanced AI technology at your fingertips.

With our AI Face Swap Filter, you upload an image, and our AI Social Photobooth will add your guest's face to the uploaded image.

We also have themed filters using AI Transform, which will take the image that your guests capture at the event and generate an image based on the theme you have chosen.

GIF BOOTH SLIDER

The GIF Booth Slider – is a single camera twist on the bullet time effect allowing to create shareable content effortlessly all from an iPad

The iPad drifts along its custom track to take a series of photos in seconds, creating an exciting mash-up between an array and a boomerang GIF

Unique to Social Tag Me, our fully automated trigger system means the iPad glides and the capture starts simultaneously at the press of a single button. Consistent results every time.

Our GIF Booth Slider creates a bullet-time or stop motion effect with a simple and effective automated slide action rig, the result is a 3D photo effect which will blow your guests minds.

Pricing is based on event details. Check out links below...

PHOTO MOSAIC WALL VIRTUAL / PHYSICAL

Our photomosaic station creates jaw-dropping digital & physical mosaics from live event photos in real-time

It creates digital & physical mosaics from live event photos in real-time. The photos are automatically fetched from Instagram, Twitter, on-site photo booths, an on-site photographer's camera, and more.

Digital Setup: The mosaic generation process is either projected (using a projector) or displayed on a large-screen TV. The photos transition into their place on the mosaic in real-time with a 3D effect.

Physical Setup: The software automatically prints photos as stickers. Guests can engage in the interactive experience by placing their photo stickers on the mosaic board
